The cool air of the Alps. The sight of over 20,000 pine trees stretching to forever. Here's a piece of Switzerland only two hours away from Manila. Welcome to Crosswinds, a breathtaking, Swiss-inspired community in Tagaytay made up of both residential enclaves and condotels like the Grand Quartier. Shop and dine in cafes, specialty shops, and restaurants al fresco in its developed areas such as the Alpine Village. Or renew the spirit at the Hilltop Chapel, Crosswinds' sanctuary in the sky. Create special memories at the Event Lawn, a picturesque corner of Crosswinds made for celebrations. And after all that, feed the soul at the upcoming Gym and Spa. [illegible] and live a life shaped by gentle rolling hills draped in deep greens and blues. It's the life you've always dreamed of. Minus the travel documents, of course.

Crosswinds. Live Inspired.

Celebrate summer in Switzerland this weekend (head to Tagaytay)
Crosswinds invites you to a Swiss-inspired summer this April [illegible] and [illegible], starting at [illegible] in the morning, you are welcome to take in the cool climes of Tagaytay and take part in [illegible]. REPUBLIC OF THE PHILIPPINES
DEPARTMENT OF TRANSPORTATION & COMMUNICATIONS
LAND TRANSPORTATION OFFICE
East Avenue, Quezon City
E-mail Address: [illegible] • Website: www.lto.gov.ph

REQUEST FOR INFORMATION

The Land Transportation Office (LTO) intends to standardize all motor vehicle license plates pursuant to RA 4136, as amended by Batas Pambansa 43.

At present, there are approximately 7.2 million registered vehicles, majority of which, or around 3,537,565, still bear non-graphic plates. Needless to say, this creates confusion in the apprehension of counterfeit plates. Hence, the LTO shall standardize motor vehicle license plates in order to improve the Motor Vehicle Database System; cut the loss of government revenues; and end the practice of using dilapidated and illegible plates.

The LTO shall set guidelines and procedures in order to implement the program on January to July 2013 for plates ending in 1 to 7 and for plates ending in 8, 9, 0 within August to October 2013. Included therein is the outsourcing of motor vehicle plate production for the replacement of all existing plates with new motor vehicle plates.

In view of the foregoing, the LTO is requesting for information on the latest technology available on motor vehicle license plates that must past tests conducted by an independent laboratory. The response should include a detailed specification of the proposed license plates, including its strengths and weaknesses. The proposed material must also have a minimum of three (3) security features. Its superior quality must last for at least five (5) years and must have a full reflective identification system.

The response to this RFI must also include the estimated cost of each pair of plates to be produced.

There shall be a scheduled conference on 19 April 2012, 1:30 pm at the LTO Bulwagan Romeo F. Edu, 2nd floor LTO Central Office, East Avenue, Quezon City where clarificatory questions may be asked by the interested parties.

Please submit response to this RFI to the Office of the LTO Executive Director at East Avenue, Quezon City on or before 18 May 2012.

THE STAR
[illegible]

It has become a trend over the past years for many Filipinos to leave the cities and find their homes and their futures in outlying suburbs. This outward migration is largely due to the need for space and peace, as our cities are slowly overcrowding, and both air and noise pollution have become true vexations to the spirit.

Live your dream at Manhattan Heights.

Life is all about challenges. They make each day more exciting and push you to always be at the top of your game. From the moment you step out of the house, however, doing what you set out to accomplish for the day takes effort and patience—especially when the rush hour is in full swing.

When it comes to the bigger and more serious challenge of fulfilling your dream of a convenient lifestyle, Megaworld Corporation has something exceptional to offer: a well-planned condominium home at Manhattan Heights in the Araneta Center. In this vibrant community, you're free from the stress of the gridlock, giving you and your loved ones more time to live, love and do more.

The third phase of the 18-tower Manhattan Garden City project, Manhattan Heights showcases a premier location near the exciting attractions of the Araneta Center as well as a variety of schools, workplaces, medical centers and churches. It also boasts a direct link to the LRT-2 and MRT-3 train systems, which lets you enjoy a traffic-free route to the most important destinations in the city.

Tower C of Manhattan Heights, the first residential tower to be built for this phase, is set to come on stream soon, offering condo buyers the opportunity to command the pace of their everyday lives.

Aside from overlooking the 35-hectare Araneta Center cityscape, Manhattan Heights features a 770-meter-long garden walkway. This serves as your exclusive connection to the Smart Araneta Coliseum and over a hundred leisure and retail establishments at the Gateway Mall, Farmers Plaza, Ali Mall and Shopwise. In this fun zone, you can do your weekly groceries, shop to your heart's content, dine well into the evening and catch the last full show of the hottest box office hit.

If staying in is more your thing, Manhattan Heights has its own amenity area filled to the brim with recreational amenities and sports facilities. Homeowners also have the privilege of enjoying the play amenities in other phases, which are all interconnected through landscaped walkways.

Classy and leisure amenities made fully accessible at your new home.

Commuting is already a breeze with the project's instant access to the trains. However, train riders aren't the only ones that have it easy. Those [illegible] can simply stroll outside and easily catch a bus at the Araneta Center bus terminal.

Living your dream may be challenging, but it will always be fun and fulfilling when you call Megaworld's Manhattan Heights your home.

Discover Manhattan Garden City. Call [illegible] or visit the showrooms at 2nd Level of Gateway Mall and 2nd Level of Ali Mall.

The good, the bad, the beautiful: The 16 rocking Manila right now

By RAYMOND ANG

T[illegible]

F[illegible]

Love it or hate it, Manila's home — so learn to love it already. Because whether you get over yourself or not, these 16 are rocking it anyway, finding a way to lead interesting lives in the constraints of the big bad city. Sometimes, it really is more fun in the Philippines.

Young STAR's super sweet 16

By RAYMOND ANG and KAREN BOLILIA

For our 16th birthday, we're tying up with the Department of Tourism for an exhibit featuring some of Manila's most talented youth. Taking on the "It's more fun in the Philippines" tagline, we tapped 16 talents to team up for eight artist-photog collaborations. Summer lovin' sales and such

Summer, the scorching heat of this time of the year brings us to bodies of water and other exotic destinations. But auto companies are also hoping it takes you into their air-conditioned showrooms. There's a lot of interesting stuff to see, and even more interesting (and irresistible) deals that should make driving away in a brand new ride just a little easier. We did a little research to show you what's out there so far.

POINT and SHOOT

Rally-derived sports sedans such as the Subaru WRX STI certainly appeal to a lot of buyers. After all, what's not to like about its boisterous good looks, powerful turbocharged engine and all-weather security courtesy of advanced all-wheel drive. However, since it's only available with a manual transmission, it takes a select few—the purist—to truly appreciate a beast such as this. Fortunately for the rest of the populace, thanks to the increasing trend towards automated gearboxes on high performance machines, Subaru now offers an automatic transmission option on its WRX STI and it's called the WRX STI A-Line.

Coupled with the CVT is the WRX STI's Subaru Intelligent Drive or SI-Drive. Most of the time you'll probably leave things in its default "Intelligent" mode. However, if you need sharper response (at the expense of fuel economy), you can change the throttle mapping to "Sport" [illegible] "Sport Sharp" [illegible]

Subaru's move to add an automatic transmission to its WRX STI may seem sacrilegious—an impure addition to the [illegible]. There are certainly some enthusiasts out there who want to own a [illegible] Subaru [illegible] but can't drive a manual. There are some too, who've always wanted to have a WRX STI as a daily driver but can't [illegible] with a manual thanks to Manila's [illegible] traffic. But whichever the reason, the Subaru WRX STI A-Line is one magical piece of engineering—sophisticated, capable and sporty every bit as you'd come to expect from Subaru's top-tier STI division.

The moment has arrived.

A day in the life of a
SERVICE ADVISOR

There's an old saying in life that says: marry the girl, marry the family. Well, the same goes with buying a new car. Because once the honeymoon period is over, and that glorious new-car scent begins to fade, so long as you have any intention of keeping your manufacturer's warranty valid, you will be forced into a long term relationship with your dealer—or casa, as we prefer to say locally. So you better choose wisely.
